EVIDENCE: 2026-11-08

Northstar practice migration audit

Three confirmed defects remain: checklist unavailable (P0), resources context omitted (P1), and mobile contact overflow (P1).

Component readiness

One rating per distinct block type

Readiness	Block types
Ready	2
Minor work	2
Substantial work	0
Capability missing	2
Unverified	0

Scoped pages	Block types	Variants	Block uses
4	6	6	9

Block uses by page

Page	Readiness mix	Uses	Visual match
Home	1 / 1	2	Close
Resources	1 / 1	2	Partial
Contact	1 / 1	2	Partial
Guide	3	3	Close

Same readiness colors as above. Each row counts uses on that page; repeated types can appear on several pages. Visual match is a separate assessment.

Navigation, route mapping and both native disclosures worked in the performed mouse/keyboard checks.

This is a finished audit of deliberately flawed practice sites, not a successful migration or release approval.

Required preparation download is blocked. Restore the missing guidance and mobile reflow, then retest the same journeys and viewports.

Baseline: Fictional source-to-target parity; 4 scoped routes

Readiness counts are not completion percentages. Shared header/footer are assessed separately.

Final work board	30
Technical evidence and original outcomes	31

Every detailed component section is bookmarked. Full original check records and machine-readable assessments are embedded in audit-records.zip. Full-size evidence remains at the retained paths.

SCOPE / TERMS / EVIDENCE BOUNDARIES

Reading the assessments

Fresh collection and Chrome review at 1440x900 and 390x844; original screenshots retained.

Dimension	Meaning
Visual: Close / Partial / Far off / Unverified	Rendered comparison of layout, typography, spacing, color, imagery and states. A missing file alone does not establish a visual rating.
Functional: Complete / Partial / Missing / Unverified / Not applicable	Expected capabilities and states compared with production. Complete requires every stated required state verified. Sampled success remains bounded.
Readiness: Ready / Minor work / Substantial work / Capability missing / Unverified	Delivery assessment using visual, functional and required quality coverage. Ready requires completed required states/viewports and quality checks.
Block types, variants and uses	A block type is a distinct implementation, such as hero. A variant is an exact class combination, such as hero video. Each placement is one use; cards inside a block are not separate uses. Shared header/footer are excluded from body totals.

Remaining limits

Local fictional scope only. Formal accessibility conformance, production indexing, authentication, external services and real message submission are excluded.

Counts use source-present, non-overlapping logical regions: 6 body types and 9 required uses; target currently has 8 because the resources intro is absent.

Only hero and contact-panel have authored CSS classes. Unclassed variant labels describe observed native HTML selectors; they are not invented library classes.

CSS viewports are 1440x900 and 390x844; some mobile JPEG originals are 375x812 pixels. Crops use original image pixels.

4-PAGE INVENTORY / SOURCE AND TARGET REFERENCE

Scope and page mappings

Comparison baseline: Fictional source-to-target parity; 4 scoped routes

PAGE-94D251729FDB / /

Page breakdown: Home

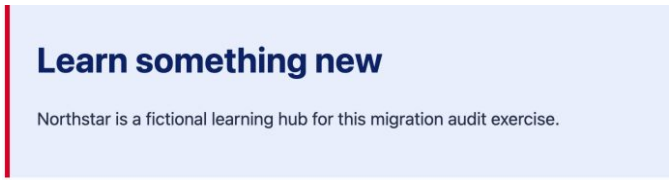

Visual: Close | **Functional:** Partial
Readiness: Capability missing

PRODUCTION / SOURCE / 1440x900

Source page / 2026-11-09T02:14:13.529Z
Capture: home-source-desktop.jpg

MIGRATED / TARGET / 1440x900

Target page / 2026-11-09T02:15:42.939Z
Capture: home-target-desktop.jpg

Matched desktop view at 1440x900. Source/Target banners identify environments and are intentional.

PRODUCTION / SOURCE / 390x844

Source page / 2026-11-09T02:15:53.210Z
Capture: home-source-mobile.jpg

MIGRATED / TARGET / 390x844

Target page / 2026-11-09T02:15:55.135Z
Capture: home-target-mobile.jpg

Matched mobile view at 390x844; content reflows on both sides.

Already retained / working

Hero and preparation content match; resources navigation works.

Gaps and remaining work

F-001: required checklist unavailable.

Page-specific quality checks

Review limited to the stated local practice scope; no production approval.

PAGE BREAKDOWN / COUNTS AND READINESS

Blocks on Home

Counts below are authored uses of the exact class combination. Statuses apply to the noted evidence and states; review each variant and page-specific exception.

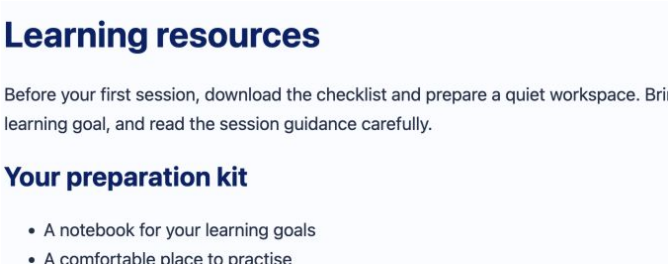

Actual class / uses	Visual	Functional	Readiness / remaining detail
hero / 1	Close	Not applicable	Ready Literal authored class hero; tested only within the fictional scope.
(unclassed h2 + paragraphs) / 1	Close	Partial	Capability missing Native unclassed home group. Resources link works; its separate checklist action is missing.

PAGE-8D7D68E3FAF1 / /RESOURCES/

Page breakdown: Resources

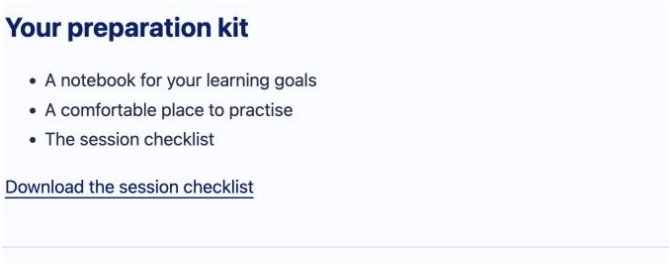

Visual: Partial | **Functional:** Partial
Readiness: Capability missing

PRODUCTION / SOURCE / 1440x900

Source page / 2026-11-09T02:14:14.461Z
Capture: resources-source-desktop.jpg

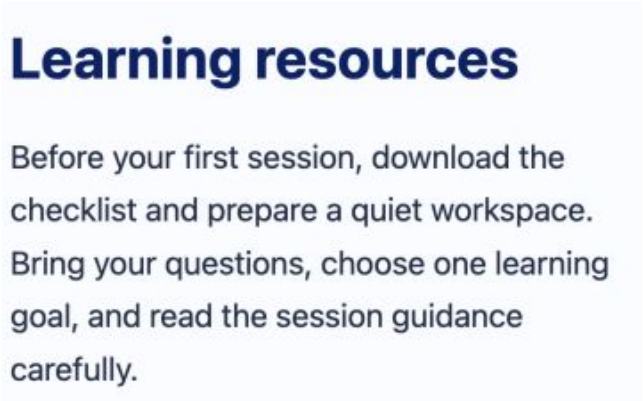

MIGRATED / TARGET / 1440x900

Target page / 2026-11-09T02:15:43.115Z
Capture: resources-target-desktop.jpg

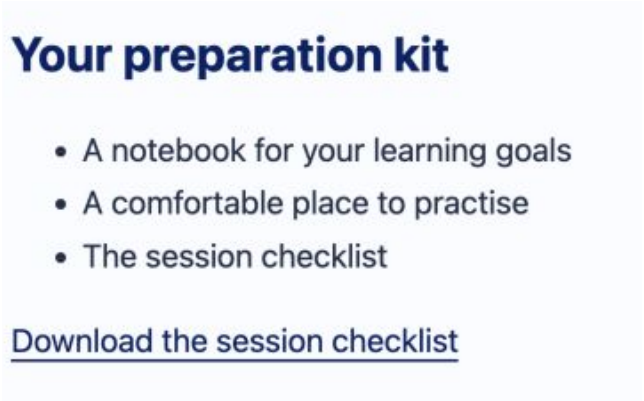

Matched desktop view at 1440x900. Source/Target banners identify environments and are intentional.

PRODUCTION / SOURCE / 390x844

Source page / 2026-11-09T02:15:53.361Z
Capture: resources-source-mobile.jpg

MIGRATED / TARGET / 390x844

Target page / 2026-11-09T02:15:55.301Z
Capture: resources-target-mobile.jpg

Source heading and preparation guidance are missing on target; the preparation kit itself remains.

Already retained / working

Kit heading, three list items and download label retained.

Gaps and remaining work

F-001: required checklist unavailable.

F-002: H1 and introductory guidance missing.

Page-specific quality checks

Review limited to the stated local practice scope; no production approval.

PAGE BREAKDOWN / COUNTS AND READINESS

Blocks on Resources

Counts below are authored uses of the exact class combination. Statuses apply to the noted evidence and states; review each variant and page-specific exception.

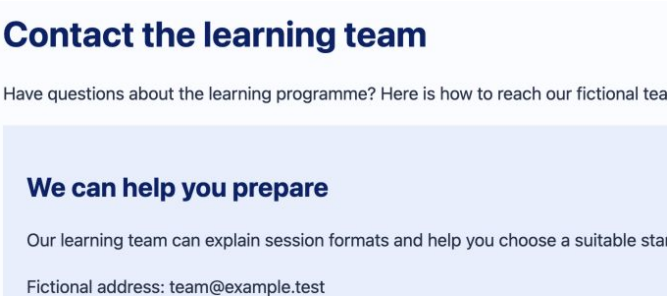

Actual class / uses	Visual	Functional	Readiness / remaining detail
(unclassed h1 + p) / 1	Partial	Not applicable	Minor work Unclassed native h1 + p group. Resources is missing; contact and guide remain Ready. The aggregate keeps the worst observed remaining work visible.
(unclassed h2 + ul + p) / 1	Close	Partial	Capability missing Native unclassed resources kit. Text/list retained; checklist action fails.

PAGE-3C32BE8E5D4F / /CONTACT/

Page breakdown: Contact

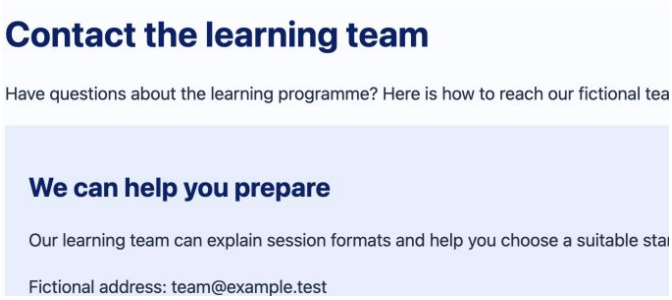

Visual: Partial | **Functional:** Not applicable
Readiness: Minor work

PRODUCTION / SOURCE / 1440x900

Source page / 2026-11-09T02:14:14.651Z
Capture: contact-source-desktop.jpg

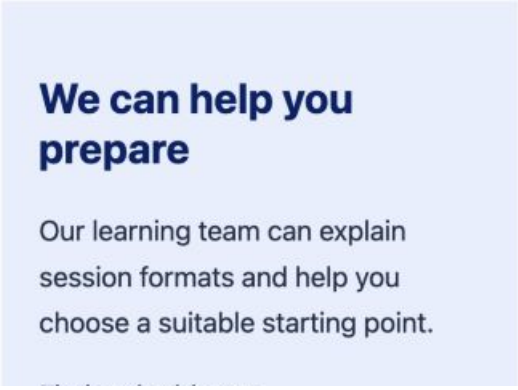

MIGRATED / TARGET / 1440x900

Target page / 2026-11-09T02:15:43.278Z
Capture: contact-target-desktop.jpg

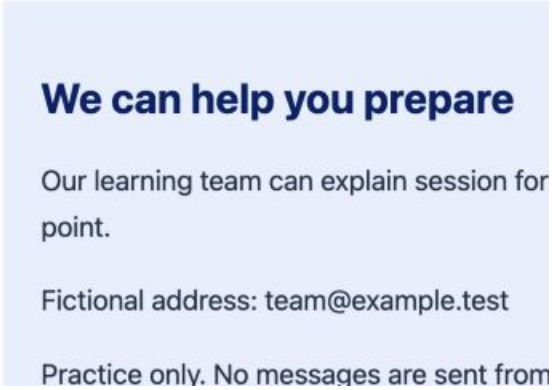

Matched desktop view at 1440x900. Source/Target banners identify environments and are intentional.

PRODUCTION / SOURCE / 390x844

Source page / 2026-11-09T02:15:53.520Z
Capture: contact-source-mobile.jpg

MIGRATED / TARGET / 390x844

Target page / 2026-11-09T02:15:55.468Z
Capture: contact-target-mobile.jpg

At the same 390x844 CSS viewport, target fixes the panel at 760 CSS pixels and clips its text; source fits. Original JPEGs are 375x812 pixels, so crop bounds use those pixels.

Already retained / working

Heading, introduction and all panel text retained; desktop presentation matches.

Gaps and remaining work

F-003: mobile contact panel overflows; desktop text/layout match.

Page-specific quality checks

Review limited to the stated local practice scope; no production approval.

PAGE BREAKDOWN / COUNTS AND READINESS

Blocks on Contact

Counts below are authored uses of the exact class combination. Statuses apply to the noted evidence and states; review each variant and page-specific exception.

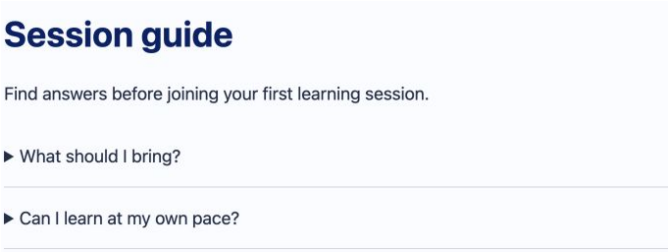

Actual class / uses	Visual	Functional	Readiness / remaining detail
(unclassed h1 + p) / 1	Close	Not applicable	Ready This page intro remains matched; the aggregate issue affects resources only.
contact-panel / 1	Partial	Not applicable	Minor work Literal authored class contact-panel; tested only within the fictional scope.

PAGE-EEDF4CC7BDDC / /GUIDE/

Page breakdown: Guide

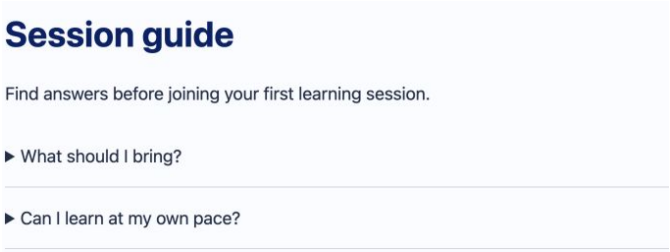

Visual: Close | **Functional:** Complete
Readiness: Ready

PRODUCTION / SOURCE / 1440x900

Source page / 2026-11-09T02:14:14.834Z
Capture: guide-source-desktop.jpg

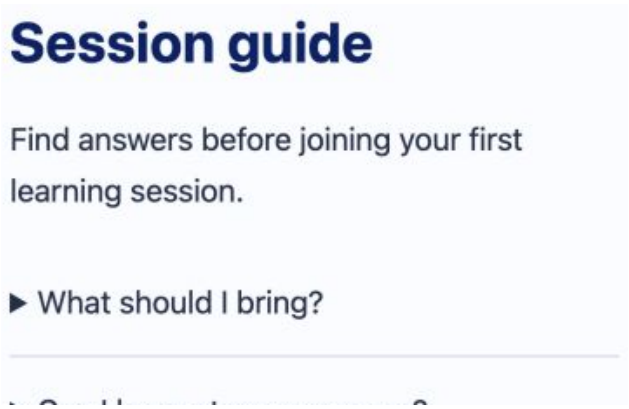

MIGRATED / TARGET / 1440x900

Target page / 2026-11-09T02:15:43.457Z
Capture: guide-target-desktop.jpg

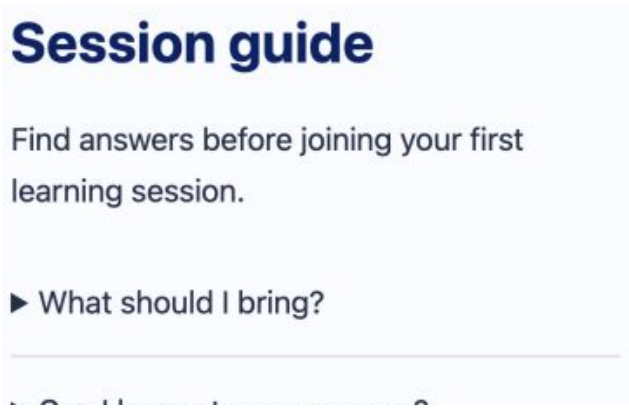

Matched desktop view at 1440x900. Source/Target banners identify environments and are intentional.

PRODUCTION / SOURCE / 390x844

Source page / 2026-11-09T02:15:53.730Z
Capture: guide-source-mobile.jpg

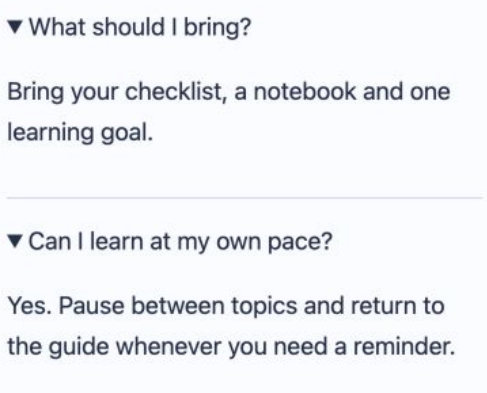

MIGRATED / TARGET / 390x844

Target page / 2026-11-09T02:15:55.702Z
Capture: guide-target-mobile.jpg

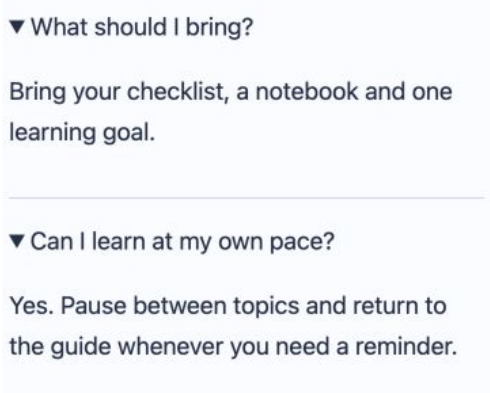

Both collapsed native disclosures remain present at 390x844.

PRODUCTION / SOURCE / 390x844

Source page / 2026-11-09T02:15:54.420Z
Capture: guide-source-mobile-open.jpg

MIGRATED / TARGET / 390x844

Target page / 2026-11-09T02:15:56.405Z
Capture: guide-target-mobile-open.jpg

Both answers opened by mouse. Enter opened and Space closed each disclosure on both sites at both required viewports; browser-actions.json preserves the state sequence.

Already retained / working

Moved route maps to /help/; both disclosures and answers retained.

Gaps and remaining work

Page-specific quality checks

Review limited to the stated local practice scope; no production approval.

PAGE BREAKDOWN / COUNTS AND READINESS

Blocks on Guide

Counts below are authored uses of the exact class combination. Statuses apply to the noted evidence and states; review each variant and page-specific exception.

Actual class / uses	Visual	Functional	Readiness / remaining detail
(unclassed h1 + p) / 1	Close	Not applicable	Ready This page intro remains matched; the aggregate issue affects resources only.
(unclassed details) / 2	Close	Complete	Ready Two unclassed native details elements, counted as two uses, not one accordion library use.

FREQUENCY / ORIGINAL AUTHORED HTML

Block usage by page

Numbers count authored block uses. A dash means absent. Uses is the full-scope total. Shared header/footer uses are separate. Variants retain their exact original class names.

These rows summarize each block type. Page-specific and variant exceptions remain in their separate rows and detail assessments.

P01 = Home; P02 = Resources; P03 = Contact; P04 = Guide

Block type	P01	P02	P03	P04	Uses	Visual	Function	Readiness
hero	1	-	-	-	1	Close	Not applicable	Ready
home preparation	1	-	-	-	1	Close	Partial	Capability missing
introductory content	-	1	1	1	3	Partial	Not applicable	Minor work
preparation kit	-	1	-	-	1	Close	Partial	Capability missing
contact-panel	-	-	1	-	1	Partial	Not applicable	Minor work
disclosure	-	-	-	2	2	Close	Complete	Ready

FREQUENCY / ORIGINAL AUTHORED HTML

Exact authored variants

Numbers count authored block uses. A dash means absent. Uses is the full-scope total. Shared header/footer uses are separate. Variants retain their exact original class names.

These status columns use each exact variant assessment. Page-specific exceptions remain in the page breakdowns and notes.

P01 = Home; P02 = Resources; P03 = Contact; P04 = Guide

Exact class attribute	P01	P02	P03	P04	Uses	Visual	Function	Readiness
hero	1	-	-	-	1	Close	Not applicable	Ready
(unclassed h2 + paragraphs)	1	-	-	-	1	Close	Partial	Capability missing
(unclassed h1 + p)	-	1	1	1	3	Partial	Not applicable	Minor work
(unclassed h2 + ul + p)	-	1	-	-	1	Close	Partial	Capability missing
contact-panel	-	-	1	-	1	Partial	Not applicable	Minor work
(unclassed details)	-	-	-	2	2	Close	Complete	Ready

ACTUAL PRODUCTION NAMES / SEPARATE SHARED COUNTS

Shared usage and source-to-block mapping

Shared block type	Pages	Uses
header	Home, Contact, Guide, Resources	4
footer	Home, Contact, Guide, Resources	4

B01 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: hero

Visual: Close | **Functional:** Not applicable
Readiness: Ready

Usage: Home x1

Expected: Retain the static hero heading, paragraph, navy/red treatment and responsive layout.

Already retained	Visual gaps	Functional gaps
Heading, paragraph and presentation match at both viewports.	None recorded	None recorded

Remaining work:

Done when: No repair needed within the scoped static hero.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
hero / 1	Close / Not applicable / Ready	Literal authored class hero; tested only within the fictional scope.

Evidence: home-desktop; home-mobile

B02 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: home preparation

Visual: Close | **Functional:** Partial
Readiness: Capability missing

Usage: Home x1

Expected: Retain the preparation content and both resource/download entry points.

Already retained	Visual gaps	Functional gaps
Heading and copy match; the resources link opens the intended page.	None recorded	Required checklist entry point returns 404.

Remaining work: Restore the required checklist destination (F-001).

Done when: Both entry points open the approved checklist at both sizes.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
(unclassed h2 + paragraphs) / 1	Close / Partial / Capability missing	Native unclassed home group. Resources link works; its separate checklist action is missing.

Evidence: D-desktop; D-mobile; home-mobile

B03 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: introductory content

Visual: Partial | **Functional:** Not applicable
Readiness: Minor work

Usage: Resources x1; Contact x1; Guide x1

Expected: Retain each page main heading and its introductory guidance.

Already retained	Visual gaps	Functional gaps
Contact and guide introductions remain matched at both sizes.	Resources loses the entire H1/guidance region (F-002).	None recorded

Remaining work: Restore the resources H1 and preparation paragraph.

Done when: Approved headings/guidance appear before body content at both sizes.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
(unclassed h1 + p) / 3	Partial / Not applicable / Minor work	Unclassed native h1 + p group. Resources is missing; contact and guide remain Ready. The aggregate keeps the worst observed remaining work visible.

Evidence: resources-mobile; quality-observations.json

B04 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: preparation kit

Visual: Close | **Functional:** Partial
Readiness: Capability missing

Usage: Resources x1

Expected: Retain the preparation list and working checklist download.

Already retained	Visual gaps	Functional gaps
Preparation heading, three list items and download label remain.	None recorded	Download returns the same unavailable URL as home (F-001).

Remaining work: Publish the approved checklist or approved replacement destination.

Done when: Open correct checklist from resources at both sizes.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
(unclassed h2 + ul + p) / 1	Close / Partial / Capability missing	Native unclassed resources kit. Text/list retained; checklist action fails.

Evidence: resources-desktop; D-desktop; D-mobile

B05 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: contact-panel

Visual: Partial | **Functional:** Not applicable
Readiness: Minor work

Usage: Contact x1

Expected: Fit all fictional contact content to its container without horizontal scrolling.

Already retained	Visual gaps	Functional gaps
All text is retained; desktop panel matches. No form or sending service exists.	Target uses a fixed 760px panel at mobile width (F-003).	None recorded

Remaining work: Remove the target-only mobile width and retest reflow.

Done when: At 390x844 all copy fits without horizontal scroll; retain desktop match.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
contact-panel / 1	Partial / Not applicable / Minor work	Literal authored class contact-panel; tested only within the fictional scope.

Evidence: contact-desktop; contact-mobile; browser-observations.json

B06 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: disclosure

Visual: Close | **Functional:** Complete
Readiness: Ready

Usage: Guide x2

Expected: Retain both native details/summary controls, answers and keyboard behavior.

Already retained	Visual gaps	Functional gaps
Both controls and answers match. Enter/Space and mouse state transitions passed at both sizes.	None recorded	None recorded

Remaining work:

Done when: Continue preserving both answer texts and keyboard/pointer operation.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
(unclassed details) / 2	Close / Complete / Ready	Two unclassed native details elements, counted as two uses, not one accordion library use.

Evidence: I-desktop; I-mobile; guide-mobile-open

S01 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: header

Visual: Close | **Functional:** Complete
Readiness: Ready

Usage: Home x1; Contact x1; Guide x1; Resources x1 (shared header/footer; excluded from body totals)

Expected: Preserve the shared header and its scoped behavior.

Already retained	Visual gaps	Functional gaps
Matched presentation and content; all four links and route mapping work.	None recorded	None recorded

Remaining work:

Done when: Retain the tested content and behavior at both viewports.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
(unclassed header) / 4	Close / Complete / Ready	Native HTML with no class attribute. Four uses on each environment; excluded from body totals.

Evidence: N-desktop; N-mobile; browser-actions.json; browser-observations.json

S02 / ACTUAL AUTHORED NAME / VISUAL AND FUNCTIONAL READINESS

Block assessment: footer

Visual: Close | **Functional:** Not applicable
Readiness: Ready

Usage: Home x1; Contact x1; Guide x1; Resources x1 (shared header/footer; excluded from body totals)

Expected: Preserve the shared footer and its scoped behavior.

Already retained	Visual gaps	Functional gaps
Matched presentation and content; lower-page copy retained.	None recorded	None recorded

Remaining work:

Done when: Retain the tested content and behavior at both viewports.

Exact variant / total uses	Visual / functional / readiness	Specific evidence boundary
(unclassed footer) / 4	Close / Not applicable / Ready	Native HTML with no class attribute. Four uses on each environment; excluded from body totals.

Evidence: N-desktop; N-mobile; browser-actions.json; browser-observations.json

EXPERIENCE GAPS ACROSS BLOCKS AND SERVICES

Retained and missing capabilities

Capability / affected pages	Status / what remains	Required action
K01 / Required preparation download Home, Resources	Fail **Retained:** Both visible entry points and labels remain. **Missing / open:** Target file is unavailable (404).	Resolve F-001 and repeat both journeys at both sizes. D-desktop; D-mobile; asset-checks.json
K02 / Shared navigation and moved guide route Home, Contact, Guide, Resources	Pass **Retained:** All four navigation destinations work; /guide/ maps to /help/. **Missing / open:** No missing scoped navigation capability observed.	Preserve tested destinations and mapping. N-desktop; N-mobile
K03 / Two native help disclosures Guide	Pass **Retained:** Mouse and Enter/Space open/close both retained answers. **Missing / open:** No missing scoped disclosure state observed.	Retain both tested controls and answer content. I-desktop; I-mobile; browser-actions.json

QUALITY REQUIREMENTS / FAIL

Responsive visual parity

What the evidence establishes

Home and guide reflow at both sizes. Contact target is 760px wide within the 390px viewport. Resources omits its intro.

Remaining work

Resolve F-002/F-003 and repeat matched captures.

Evidence: V02-mobile; V03-mobile; browser-observations.json

QUALITY REQUIREMENTS / FAIL

Scoped accessibility

What the evidence establishes

Keyboard order, focus outline and native disclosure controls passed. Language and nav label retained. Authored text/focus contrast pairs exceed scoped minimums. Resources loses its H1; contact fails mobile reflow.

Remaining work

Restore the H1 and mobile reflow. Formal conformance is outside this exercise.

Evidence: A-desktop; A-mobile; quality-observations.json; asset-checks.json

QUALITY REQUIREMENTS / PASS

Local SEO and environment

What the evidence establishes

Page titles/descriptions and canonical paths retained, including /help/. Stylesheet responses match fixture bytes. No forms, JavaScript, images or external services exist in the reviewed pages.

Remaining work

Production robots, sitemap/indexing and service checks are not applicable to this local exercise.

Evidence: SEO; quality-observations.json; asset-checks.json

QUALITY REQUIREMENTS / PASS

Evidence and reproducibility

What the evidence establishes

Static baseline, reviewed findings, browser action sequences, screenshot originals and hashes are preserved. PDF verification is issued separately after rendering.

Remaining work

No release decision is requested. Preserve the frozen packet when reproducing.

Evidence: evidence.json; browser-review.json; browser-actions.json; capture-archive.zip

DELIVERY ACTIONS / ALL OUTCOMES REMAIN EVIDENCE-BOUND

Final work board

Task / status / owner	Affected scope and action	Done when
W-F-001 / Required checklist download returns 404 Fail / P0 Owner: TBD	Home, Resources Publish the approved sample checklist at /downloads/checklist.txt or update both entry points to an approved destination.	From both pages at both viewports, open the approved checklist and verify its content, not just an HTTP 200.
W-F-002 / Resources heading and preparation guidance omitted Fail / P1 Owner: TBD	Resources Restore the approved H1 and introductory preparation paragraph before the kit.	At desktop and mobile sizes, verify the H1, exact approved guidance and order; retain the kit and download link.
W-F-003 / Contact panel overflows the mobile viewport Fail / P1 Owner: TBD	Contact Remove the target-only fixed mobile width and allow the panel to fit its container.	At 390x844 and 1440x900, all panel copy fits without horizontal scrolling and remains matched to source.

APPENDIX / SUPPORTING RECORDS

Technical evidence and original outcomes

The main report explains the migrated experience. Supporting records include preserved original measurements/check outcomes, any new collection and supplemental observations, and supplied workflow references. Their dates and evidence lineage remain distinct; they are not visual-completion scores.

Embedded supporting record	Purpose
evidence.json	Frozen static HTTP observations
baseline-analysis.json	Initial automated baseline before review
analysis.json	Recomputed measured totals with findings
report.md	Reviewed measured supporting report
reviews.json	All three supported findings
browser-review.json	Individual checks and screenshot bindings
browser-actions.json	Actual navigation/download/disclosure state sequences
browser-observations.json	DOM readings and original capture metadata
quality-observations.json	Observed document metadata and authored identifiers
asset-checks.json	Served CSS/checklist bytes and scoped contrast calculations
census.json	Non-overlapping native region census and target exceptions
scope.md	Agreed fictional exercise scope
capture-archive.zip	Original screenshots, HTTP snapshots, inputs and matching fixture code

Use a PDF reader with an attachments panel to extract audit-records.zip. It includes this assessment, exact original record bytes, file hashes and any supplied additional archive. Screenshot/HTTP bodies are only embedded if supplied as record files; their retained paths do not imply every binary is inside the PDF.
